

Clases de Español

Hola Parents,

Learning Spanish is fun, it opens a whole new world to your child. Spanish is the most commonly spoken language in the world. It is spoken in dozens of countries including Spain, Central and South America from Mexico to Chile.

By learning Spanish your child will be able to identify similarities and differences between their culture and others.

I was born in San Diego and lived my young life in Mexico. I have taught traditional and Montessori and being a lead teacher with both Preschool in both Mexico and the United States for over 30 years. I am looking forward to teach Spanish to your child this year. Please feel free to contact me with any questions or concerns.

My curriculum will immerse the children into Spanish by using fun and upbeat games, stories, songs, arts & crafts and practice... practice... practice. Everyday vocabulary will include numbers, colors, shapes, food, body parts and common expressions, I teach using the Montessori influences that I have obtained throughout the years.

To register, complete the bottom portion of this letter. Sessions are continuous. Please feel free to call with any questions.

Muchas gracias

Alicia M. Camacho.
